FACSIMILE OF VARNISH LABELS

VARNISHES FOR CARRIAGE BUILDERS' USE.

FINEST DURABLE FINISHING BODY VARNISH.

This Varnish is very pale, brilliant and durable, and will preserve its lustre for years, resisting the effects of exposure to the weather better than any other Varnish. It dries in twelve hours, but hardens slowly; may be flatted down with fine powdered pumice stone in forty-eight hours, and another coat put on immediately afterwards. All work finished with this Varnish should be frequently washed with clean cold water for two or three weeks.

FINE HARD BODY VARNISH.

A brilliant Varnish, dries slightly quicker and harder than the Finest Durable Body Varnish, for which it is a suitable substitute when time is of importance.

HARD-DRYING BODY VARNISH (for First Coating only).

Pale and hard drying, suitable for the under-coats of Carriage Bodies. It may be flatted down in twenty-four hours. For new work, over dead colour, or natural wood, use two coats of this Varnish at intervals of eighteen hours without rubbing down, then leave for two days, flat down well and apply a third coat, and finish with two coats of Finest Durable Finishing Body Varnish.

FINEST ELASTIC CARRIAGE VARNISH.

The palest and most durable Carriage Varnish in the trade. To be used for wheels and under-parts of Carriages. Dries quickly, may be flatted down in thirty-six hours, and is then ready for another coat.

HARD DRYING CARRIAGE VARNISH.

Very quick and hard drying, suitable for first coats on wheels and under-parts of Carriages, especially when the work is required to be done quickly.

CARRIAGE OR WAGON VARNISH.

A good, durable Varnish for Wagons, Vans and common Carriage purposes.

QUICK JOBBING CARRIAGE VARNISH.

Suitable for hurried Jobbing work only.

SUPER BLACK JAPAN.

Dries quickly and is ready for flatting in about twenty-four hours. Use one or two coats over a black ground, and protect with Hard First Coating and two coats of Finest Durable Body Varnish. This Japan flows easily like a Varnish, and produces a most beautiful deep bright black.

VARNISH MANUFACTURERS.

WILKINSON, HEYWOOD & CLARK, LTD

VARNISHES FOR CARRIAGE BUILDERS' USE.—Continued

"NUBILAK" (Regd.)

A special preparation for Jobbing work where saving of time is an object. Does not turn green under Varnish. Printed instructions for use sent with each can.

BEST BLACK ENAMEL VARNISH, for renovating leather work of Carriages.

The best results are obtained by using this Enamel in the sun, but in any case a warm temperature is necessary. It is desirable not to use it in wet or damp weather. Leather must be thoroughly cleansed with turpentine before using this Varnish. Apply a full coat and work the Enamel well into the leather.

SPECIAL VARNISHES, &c., for the MOTOR CAR TRADE.

FINEST FINISHING STOVING BODY VARNISH.

Very pale, brilliant and durable, suitable for Aluminium Bodies, Metal Wings and Mud Guards.

FIRST COATING STOVING BODY VARNISH.

For use as an under-coat in connection with the above.

FOR WOODEN BODIES.

EXTRA PALE FINISHING BODY VARNISH.

The very palest Body Varnish made and strongly recommended for use over white and palest tints, brilliant and durable, will resist the effects of exposure to weather.

PALE FIRST COATING BODY VARNISH.

Prepared specially as an under-coating for above.

IRONWORK BLACK.

Quick drying, for use on iron under-frames.

PANHARD GREEN STOVING ENAMEL.

PANHARD GREEN AIR DRYING ENAMEL.

PANHARD RED STOVING ENAMEL.

PANHARD RED AIR DRYING ENAMEL.

The above shades of Green and Red are supplied as Coach Painters' Colours, ready mixed for application without the addition of any thinners.

MASTIC POLISH.

A special solution for cleaning and polishing bodies and varnished work of Carriages and Motor Cars. (Highly recommended.)

FINEST BLACK LACQUER.

A most useful quick-drying Lacquer for blacking up repairs, &c.

BEST JAPAN GOLD SIZE.

For mixing with paints over which it is intended to varnish, so that they may dry harder and more quickly.

BEST PALE JAPAN GOLD SIZE.

Not quite so quick-drying as the foregoing, but more suitable for light colours and for filling in natural woods previous to varnishing.

ALUMINIUM ENAMEL.

"PHILORITE" (Regd.)

Special Filling Composition.

SPECIAL THINNERS FOR "PHILORITE"

TRANSPARENT LIQUID FILLER.

PASTE WOOD FILLERS.

For filling the grain of all hard or open woods.

No. 1 LIGHT OAK.

For Maple, White Ash, Oak and other light woods.

No. 2 WALNUT.

For Walnut and other dark woods.

No. 3 ANTIQUE.

For Oak or Ash in imitation of very old woods.

"FALCONITE" WHITE ENAMEL.

"FALCON"

BRAND.

We have much pleasure in informing our friends that we have recently put upon the market A NEW HIGH CLASS ELASTIC WHITE ENAMEL, for which we have registered the word "FALCONITE."

This special White Enamel is very largely used in various Government Departments and by leading Decorators throughout the World, for first class decorative work, EITHER INSIDE or OUTSIDE.

"FALCONITE" possesses great flowing power. It dries up very hard with a brilliant gloss and is very durable, and we are confident that a practical trial will demonstrate our claim that "FALCONITE" IS THE FINEST WHITE ENAMEL ON THE MARKET IN POINT OF APPEARANCE, DURABILITY AND MOST SATISFACTORY RESULTS.

Note. — "FALCONITE" can be made to any shade.

"PHILORITE" SPECIAL ENAMEL FILLING COMPOSITION.

"PHILORITE" is the registered name given to Wilkinson, Heywood & Clark's twentieth century Filling Composition. It is the up-to-date result of careful chemical research, combined with ripe experience, and it is offered to the trade with absolute confidence as the very best thing of its kind in the market.

Many may attempt imitation, but none can equal it for excellence of surface and elasticity.

Where it is put on it STICKS, and even on surfaces which, when finished, are subjected to vibration of the most severe character, we have yet to know of a case of failure.

Whether employed in paste or semi-liquid form, either of which may be obtained from the sole manufacturers, Wilkinson, Heywood & Clark, Ltd., it gives results which surprise its most severe critics.

It is a matter of indifference whether "PHILORITE" be applied to a drawing room door in the most luxurious mansion in England, or to a very rough or corroded piece of metal. When rubbed down and finished, the one is indistinguishable from the other. The rougher the job the better "PHILORITE" likes it.

No matter whether a man is interested in house decoration, carriage or motor body building, or railway work, "PHILORITE" will smooth all rough places and render easy the work of making a sound and perfect job which is the aim and object of all good Coach or Carriage painters and decorators.

"PHILORITE" has only to be known to the trade to be employed by all those who know a really good thing when they see it.

At a merely nominal cost this Composition has been placed on the market, but we feel assured that when once it is tried, we shall reap our reward in a commercial sense, from the large turnover which "PHILORITE" really merits.

We know that all British users of such Compositions desire to turn out the very best work at the very lowest possible cost. To such we appeal with confidence, and believe that in the course of a very few years, "PHILORITE" will become a household word.

THE Coach Builders', Wheelwrights' & Motor Car Manufacturers' **ART JOURNAL.**

(Cooper's Art Journal)

ESTABLISHED 1880.

Contains each month ten coloured plates and at least five working drawings of the latest styles of carriages, motor bodies, vans, etc. Also much useful matter such as really practical technical articles and articles on the newest and best methods by experts.

Trade news and trade matters are also thoroughly dealt with.

A valuable annual diary is presented gratis to subscribers each year.

Prices—

With coloured plates, per annum, 25/-, per single issue, 2/4 post free.

Without " " " " 12/6. " " " 1/2 " "

(But including all working drawings and diary)

The Motor Car Manufacturers' Art Journal,

(Coopers' Motor Carriage Journal)

This is a supplement of the above mentioned Coach Builders', Wheelwrights' and Motor Car Manufacturers' Art Journal and is sent free to every subscriber to it (the C. B., etc., A. J.) It is also sold separately. It contains each month five coloured drawings and three working drawings of motor bodies, and numerous valuable technical articles of the most practical nature. Shows and exhibitions are thoroughly reported, new styles of motor carriage and van bodies being illustrated, and all trade events are dealt with in a concise and interesting manner. The annual diary is also included gratis.

Prices—

Per annum, 10/-, Single issues, 1/- post free.
